

Quick Start Guide:

Setting up your SCTC Managed Wi-Fi App

- 1 To download the app, open your camera and hold over the QR code. Click the link when it appears on your screen. Download the SCTC Managed Wi-Fi app on to your mobile device.

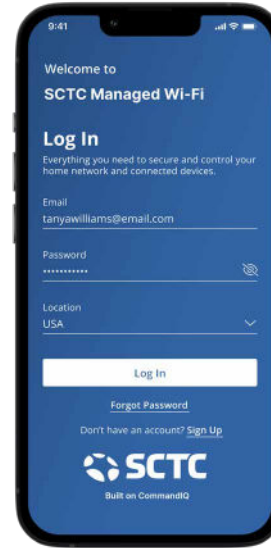

- 2 Select "Let's Get Started" towards the bottom of the screen.

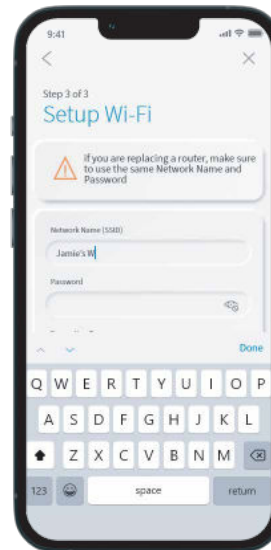

- 3 Enter your information. The password you enter here will be used to access the app.

Note:

Please wait at least 10 minutes after your SCTC router has been 'turned up' before attempting step 4.

- 4 Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.) Point your camera at the QR Code found on the sticker located on your SCTC router (example shown below). Select OK. After you select "Submit", you may be asked to enter your account number.

- 5 **Note:** If your system is already operating with WiFi, tap the "Click here to skip" text.

Otherwise, complete these steps to set-up your WiFi.

Name your network and create a password.

- The Router Name will be used throughout the app.
- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network, if you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.

Click Submit and you're all done!

Getting started with the App

The App allows you to manage your home or small business WiFi network.

Download the app and start managing your home network today!
